Madeleine Simpson - "South Africa, where the flower is King"

Tonight the club welcomed NAFAS speaker Madeleine Simpson who took us all on a journey to South Africa. We travelled with Madeleine as she took us around Cape Town, the Kirstenbosch National Botanical Garden, the southern Cape, up Table Mountain and around the various games reserves and gardens that populate that area of the globe. We witnessed first hand the flora and fauna to be found there as captured by Madeleine's camera lens. As a keen photographer, Madeleine is also something of an athlete as many photographs were taken whilst at elevated levels, climbing on tables, or hanging over ledges and out of trees. Thankfully she made it safely home and shared her memories with us.
